## **European Literacy and Citizenship Education**

European literacy is the sum total of operational knowledge about Europe, past and present: it is a complex fabric of interwoven philosophies, histories, cultures, myths and legends, religions, languages, geography, economy, geopolitics.

It is the kaleidoscope of multiple perspectives on our shared history.

It is our common past and the future that we must build together.

### **A project for School Leaders, Teachers and other Educational Partners**

The **ELICIT** project aims at developing the awareness of belonging to the same European citizenship built around a common European culture and shared values .

This is vital for

- \* the future of Europe and Europeans
- \* our conception of democracy
- \* the survival of our economy and of a societal pattern of living together

This dynamics is based on education and relies on adequate teacher training.

That is why ELICIT has produced a number of tools.
